

ECS Newsletter

Issue No: 42
May 2010
IPEX 2010

Hello and welcome to issue number 42 of the ECS newsletter.

Many things have taken place this month, mainly within the preparation of the fourth coming IPEX 2010 exhibition.

Firstly the new ECS website is operational. Please visit it via www.ecsnottingham.co.uk here you will find a full resource of the ECS product range, links to key staff members as well as view the newly produced ECS video.

A number of new products have been developed and tested in preparation for promotion this year.

ECS recently appointed a new organisation to monitor, audit and update the company on all factors relating to Health and Safety, D.G.S.A, Transportation and R.E.A.C.H We were so pleased and satisfied with the service and support provided both ECS and REACH 4 Safety have formed a partnership to provide the same service to its customers. Further information will follow however if you have any questions please contact ECS.

18 – 25 May 2010 NEC, Birmingham, UK

ECS Nottingham
LTD
Hall 6 - E520

With IPEX almost upon us ECS wanted to dedicate this issue of the newsletter to the exhibition.

As you will be aware IPEX is the world's biggest English-speaking event for print, publishing and media. It's also a source of individual help for everyone involved in print. Whether you work in a large organisation or run a family operation, IPEX is the one business event you can't afford to miss.

This exhibition will give ECS the opportunity to promote its tried and tested product range as well as showcase a number of the newly developed products ECS has to offer.

Some of the new products ECS will offer will include:

Thermal Lamination emulsion designed to help improve the consistence of bond strength of the ever popular thermal lamination process.

The new range of emulsion coatings specifically formulated for use on the newly launched Presstek DI-AC digital press. Make sure you take a trip over to the Presstek stand in hall 7 to see the ECS coatings in action.

The complete "Calcium Removal" Wash.

Fountain Solution and Automatic wash concentrates for the ever growing export market.

The best emulsion coating for use on un-coated stocks.

Digital UV Product range

Along with a number of new products ECS will also have the new look company brochure and product range. Within it you will find a core range of products designed to complement any distributor, Ink company or machine manufacture.

A member of the ECS staff who will be on site will be happy to provide you with a copy as well as discuss the range of products and make any recommendation you require.
